

## CASTLE HOT SPRINGS

EST • 1896

From January 6-8, 2020, our Tara took a group of elite advisors from across the United States to our beloved Castle Hot Springs nestled in the Bradshaw Mountains of Arizona. It was the perfect time to enjoy a period of relaxation after the holidays...because that is EXACTLY what Castle Hot Springs is; rest, relaxation and a respite from everyday life!

As most of the advisors were coming from colder areas of the country, it was so nice to land in sunny Arizona to feel the warmth and to see the sunshine. The drive from the Phoenix Sky Harbor International Airport to Castle Hot Springs is a quick one...a mere 75 minutes door-to-door. The last 7 miles of the drive are the most interesting though, as rocky riverbed makes up the landscape of the road with plenty to see along with way, including adorable burrows and breathtaking scenery. Castle Hot Springs appears to be an oasis in the desert, because as you round the last half mile to the property, the stunning palm-tree lined path appears leading you to the magnificent property.
