MYKONOS THE ISLAND OF WINDS

Known worldwide for its elegant style, wonderful landscapes and amazing beaches, Mykonos invites you to spend your special moments full of action and adventure. Mykonos is one of the few parts of the world that have a name that needs no further identification, and this makes it even more authentic.

On one hand its cobbled streets, picturesque neighborhoods, widely photographed windmills, and enchanting sunsets. On the other, it's cosmopolitan air and the arrivals of the international jet set, which ranks Mykonos amongst the "must-visit" summer destinations. Throughout the island, there are two colors that dominate. They are none other than blue and white, two colors that calm and relax the visitor. The island's vibrant nightlife – with its fantastic restaurant scene, elegant bars and nightclubs, various stores and boutique fashion houses – deserve a chapter of their own. Our concierge team can arrange your trip to any of these popular destinations.

Just a short distance away from Mykonos, Delos is a unique archaeological site that deserves a visit. During its golden years, it was one of the largest religious and commercial centers of Hellenism. Today, it is host to some of Greece's most important ancient ruins, such as the Sanctuary within the Temple of Delians and the famous marble Terrace of the Lions, which were the sanctuary guards.

In the museum, one can find one of the most important archaeological collections in the world. Don't miss the opportunity to make a one-day visit to the island. Our hotel reception will provide you with all the information you need if you want to visit.
