## LOCATION

The Dominican Republic has the unmistakable rhythm of Caribbean life. But one particular place takes this distinct cadence to heart, and takes it to new heights. Cayo Levantado is an enchanting island within an island paradise - where the heartbeat of a lively culture, the ebb and flow of natural beauty, and a vital, inner pulse are brought into perfect harmony to form a truly unique, hidden, elevated rhythm unto itself.

Cayo Levantado sits just five kilometers (three miles) from Samaná Bay, in Dominican Republic. The island is home to three incredible sandy and palm-fringed beaches in total, one public and two private ones exclusively for guests at the sophisticated Cayo Levantado Resort.

## HIGHLIGHTS OF THE DESTINATION

Samaná is a traveler's dream. It remains the Dominican Republic's secluded, paradisiacal escape of wild beaches, coconut plantations, and rainforests. Its rolling mountains and valleys form the crystalline rivers that feed into the Atlantic, as they cascade toward shiny white sand beaches stretching hundreds of kilometers all around the peninsula's rocky coastline. It's as if the approximately 2,500 humpback whales that visit Samaná Bay every year appreciate this natural splendor as much as visitors do. The giant mammals return every year, from mid-January to the end of March, to this special corner of the DR to mate, birth, and bask in this glorious tropical scenery. Aside from seasonal whale watching boat excursions in Samaná's scenic bay, more ecotourism adventures are a stone's throw away: body-boarding and kitesurfing in Las Terrenas; trekking, birding, and caving in Los Haitises National Park; canyoning or horseback riding to reach El Limón waterfall; and boat-hopping to magnificent white sand beaches at the base of 90-meter (300-foot) cliffs, or to offshore Cayo Levantado island.
