Who invented pizza?

The word "pizza" comes from the Italian word "pitta", which means "flatbread". It's been used to describe the flatbread that was eaten in the region of Naples for many centuries.

Often topped with simple ingredients such as tomatoes, cheese, and herbs.

In the 19th century, pizza became more popular in other parts of Italy and the world. This is due in part to the Neapolitan immigrants who brought their pizza recipes with them.
