LEGACY WITHIN THE LAND

A setting blessed by the gods

Perfectly nestled on a secluded peninsula on the sun-kissed island of Rhodes, AMOH Rhodes offers a unique escape, where the sky meets the sea and nature harmonises with history. The ancient quarry carves heritage into stone and the uninterrupted views of the Mediterranean envelop the resort in vast blue.

Located near the ancient town of Lindos, yet far from the crowds, with pristine beaches hidden in coves with private access that reveal shoreline miracles. A singular setting to reconnect with the world and with yourself; a peaceful sanctuary where history, nature and luxury converge.

STONE QUARRY

Etched in stone and history

Visible from Cava Di Pietra Restaurant, the ancient quarry is more than a view, it's a glimpse into the island's enduring legacy. Archaeological excavations revealed a Hellenistic–Roman quarry where 'poros' stone was once extracted and shipped to nearby Lindos, a city thriving with architectural splendour.

Within the quarry, a staircase carved from stone leads to a small underground chamber, once used by workers for shade and rest. Near the shoreline, archaeologists identified stone ramps where ships once awaited their cargo, ready to carry it toward new creations across the Aegean.

The quarry's story intertwines with the rise of ancient Lindos, where fortifications, stairways, and porticoes were shaped from this very rock. Today, it stands not just as a historic site, but as a silent testament to craftsmanship, endurance, and Rhodes' creative spirit, an integral part of the AMOH RHODES experience, where myth, material, and memory meet.
